Brooklyn, New York 11229

Dear Dr. Weinstein:

Enclosed please find the Winter 2004 issue of *Annals of the American Psychotherapy Association* featuring your most recent column.

I also sent several copies of this issue to Arlene Weiss so she could have a record of your very thoughtful comments about her service.

I wish you and your family all the best, Dr. Weinstein. I am keeping your children in my thoughts, and will continue to do so as they so bravely dedicate themselves to serve our nation. I will keep you in my thoughts as well, as I'm sure that this is both a very proud and taxing time for you as a father.

As always, Dr. Weinstein, I extend my sincere admiration for your work with children and families. You are doing a wonderful thing with your life, and I can only imagine the impact you have had on so many. I admire this greatly, and am inspired and driven to lead my career in a direction that will allow me to help others through my work as well.

Take care,
